**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am writing to urge you not to change current UNEs sharing policy.

Recently AT&T has petitioned the FCC to dismantle key components of the 1996 Telecommunications Act that allows the sharing of unbundled copper and inter-city fiber transport elements (UNEs) with competitors.

My residential internet & phone services are provided by a company, SONIC.NET, that rents UNEs (last-mile circuitry) from AT&T. This company provides me with the services at a more affordable rate than AT&T would.

If current UNEs sharing policy is discontinued, I and other consumers will be paying for the same services to AT&T at double the current cost.

Please keep the current policy as is.

Thank you very much,

Sheujen Ting
